Safe handling (section 7), personal protective equipment (section 8) and disposal considerations (section 13)

Section 7: Handling and storage

7.1 Precautions for safe handling

Notes for safe handling:

Keep container tightly closed. Ensure good ventilation / exhaust at the workplace. Caution near alcohol-sensitive materials (for example: lacquered jewellery or watches of certain plastic). Allow hot surfaces to cool before disinfecting. Before using electrical equipment, wait for the alcoholic disinfectant to dry on surfaces.

Notes on general hygiene measures at the workplace:

Wash your hands before the break and at the end of work. Keep away from food. Avoid contact with eyes.

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and containers

Keep cool, but frost-free, well ventilated and dry. Keep out of the reach of children. Store in the original container.

Further information about storage conditions

Keep away from heat and direct sunlight.

Keep separate from food.

Information about fire and explosion protection

Can form explosive gas-air mixtures. Good ventilation, especially at floor level. Vapours are heavier than air. Keep ignition sources away - do not smoke. Take measures to prevent electrostatic charging.

Storage class: 11 (TRGS 510)

7.3 Specific end use(s)

No specific end use known.
